

Rabies & HPAI Testing Specimen Submission: Wild Animals Without Human/Animal Rabies Exposure

Wild Animal Without Human/Animal Rabies Exposure & Needs HPAI Testing

Option 1

Wild animals except feral cats:
Vet clinic/Animal Shelter/Animal Finder can contact CWHC directly at 1-866-673-4781 to submit animal for HPAI testing directly to CWHC lab.

Vet clinic/Animal Shelter/Animal Finder will ship specimen directly to CWHC lab for HPAI testing as instructed by CWHC staff.

CWHC will return results to Vet clinic/Animal Shelter/Animal Finder

Option 2

For feral cats only, PHU submits OAVT RRP rabies specimen collection request with no human/animal exposure online and indicates HPAI testing required in additional notes field.

RVT will collect and ship specimen to the CWHC lab. CWHC will return both HPAI and Rabies DRIT results to PHU Submitter.

Note: HPAI testing will be performed first at CWHC. If animal is positive for HPAI rabies DRIT testing will not be completed.
